

Statement of Behaviour Principles

The Governors at Saltergate Schools believe that all our children should feel safe and happy at school. Positive behaviour is essential for a school community where every individual feels valued and respected. All members of Saltergate are asked to adhere to this statement of principles.

This statement emphasises the values that are held by the schools and which we promote to all members of the school family.

At Saltergate, we teach our youngest children the Golden Rules:

- We work hard
- We listen carefully
- We use friendly words
- We have kind hands and feet
- We look after our school and everyone in it

As children move into KS2, we emphasise the 5 R's:

- Responsible
- Resilient
- Resourceful
- Respectful
- Reflective

These are the cornerstone of the attitudes and ethos of Saltergate. We believe that if we all embody these values, our school community will be happy, safe and strong.

At Saltergate, we take a restorative approach to issues that occur and teach our children to adopt a reflective mindset. This enables the development of understanding, of positive relationships and respect for both ourselves, and others.
