What should we know?

There are 10mm in 1cm.

There are 100cm in 1m.

We start our measurements at 0.  
Width = distance from side to side.  
Height = distance from the bottom to the top.  
Length = distance from one point to another.

Must: Use these words in context.

Millimetre

Centimetre

Metre

Line

Straight

Measure

Ruler

Length

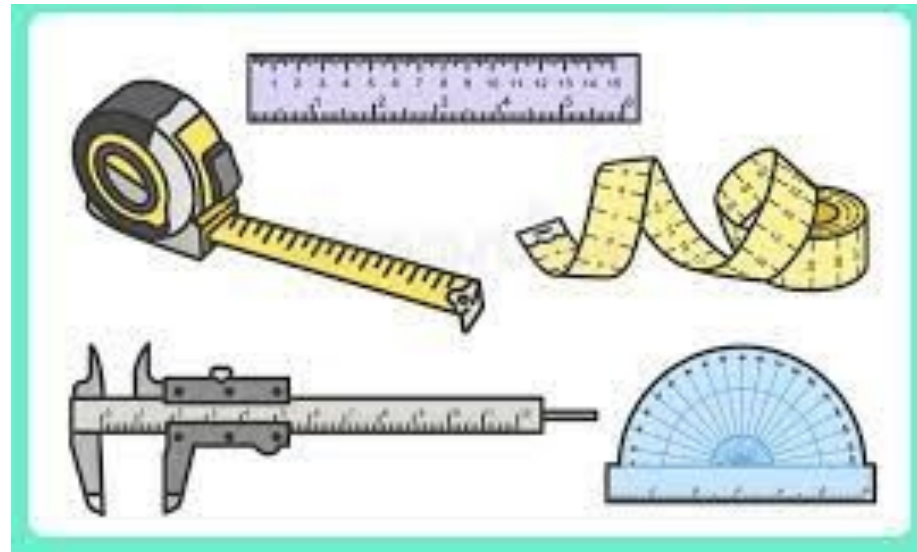

Width

Height

Shortest

Longest

Perimeter

Could...Go The Extra Mile!

- Measure the height of people in your family and create a bar chart to show your data.
- Measure 5 items in your home and create a poster to show their lengths.
- Create a beautiful glossary of maths vocabulary linked to 'length'.
- Design your own ruler and write an explanation of what it is to be used for.
